How To Make Real, In-The Market Cash Dollars Profit Of
$86,020 Profit Per Month

These are the incredible-yet-proven results following the exact secrets you’ll discover in…

Oliver Velez’
TRADE FOR LIFE
2-Day Inner-Circle Workshop

This invitation is not for everyone

It’s only for those who are willing to follow directions, work hard, take risks and want to be rich. If you qualify you could be really wealthy!

And not in six years, or ten years, but in just the next 18 months.

You are hereby invited to attend this two-day, high-intensity trading workshop that can send you home armed to make HUGE profits… just as many others have already done!

This is the workshop you don’t want to miss – loaded with a wealth of “inside” information and specifics about how you can realize amazing profits through trading the markets.

I absolutely guarantee the detailed instruction and information you obtain in this intensive training session will be more important than anything else you have ever heard or experienced before! I’m talking about bottom-line, “take-it-to-the-bank” facts that could earn you more cash than you ever dreamed possible!

The markets present a huge opportunity. But don’t take it from me – take it from those who have traded and are still pulling in the BIG MONEY trading the markets

• John in Toronto made $22,723.50 in his first two days
• A Phoenix man started with $10,000 and made $378,819 in just 90 days
• A Sherman Oaks, CA, skeptic found 181 winning trades and only 15 losses (that’s 92.3% winners!).
• A Utah businessman turned $400 into $500,000 and built the house of his dreams.
• On January 22, a Missouri physician invested $3,500 – and rode it up to … $201,443.75 by February 14 making $197,943.75 in actual profits – in just three weeks!
• A former middle-management “suit” now dresses casually… and has over $280,000 in profits!
• Randy, a Vietnam vet and college dropout, turned $2,000 into $70,000 in his first seven months… and has now posted seven consecutive years with over 1 million dollars profit every year!

Oliver Velez’ Hugely Profitable Systems Let You Trade For A Substantial Living

Oliver Velez regularly earns four and five-figure profits daily! In 2 months of trading, Oliver’s methods generated a phenomenal $277,030 in actual profits. And one student just made $86,020 profit in a single month!

We just asked Oliver to show us recent results – and he showed us an amazing six month record of over $1,200,000 in profits! (see page 2)

What would you do with over $200,000 steady profit each month?

His recent real-time trading seminars earned him huge ovations from all those in attendance.

These were not hypothetical profits. They were made with real money and real trades!

If you want to really learn how to trade for a living, the “Trade For Life” Workshop is the only place you can get one-on-one teaching by Oliver Velez. Come and join Oliver for what will surely be a profit-packed weekend of unparalleled learning. There is absolutely nothing else like this in the world.

You’ll learn:

★ An Automatic Program – to build a fortune in the next 12-18 months
★ The Best Major Moves – in the days, weeks and months ahead
★ High Accuracy Trading – a surprisingly simple program that has been 85% accurate for 10 years
★ Virtually eliminate Losses – 10-year study reveals an amazing, yet logical way to avoid nearly every loss.
★ 6 Scientific Market Insider Formulas – to accurately pinpoint a profitable trading window
★ Plus Loads More… See inside for full details …
Meet Master Stock Trader, Oliver L. Velez

Oliver L. VELEZ has been an active trader for over 2 decades. He is the founder and CEO of Velez Capital Management, LLC, one of the fastest growing private trading firms in the country.

Mr. Velez has personally trained more than 60,000 traders, individual investors, and institutional investors and has traveled the globe extolling the virtues of trading for a living. He is the co-founder and former CEO of Pristine Capital Holdings, Inc. which he grew into a global brand by serving more than 88,000 traders and investors around the world. Barron’s, Forbes, and Stocks & Commodities have all at one time rated his company the #1 educational trading firm.

Mr. Velez is the author of several popular books including Strategies for Profiting on Every Trade and Swing Trading with Oliver L. Velez, both from Marketplace Books, and Tools and Tactics from the Master Day Trader, published by McGraw-Hill. He has been the editor of several internationally recognized newsletters with worldwide readership in the tens of thousands.

“I graduated from the school of hard knocks and earned an honorary Ph.D. – poor, hungry, and driven," says Mr. Velez, who rose to the pinnacle of success while still in his early 30s.

A successful author, speaker, trader, and entrepreneur, Mr. Velez currently runs Velez Capital Management, LLC (VCM), one of the country’s fastest-growing private equity firms. VCM employs 900 professional traders who have been personally trained by Mr. Velez to trade his own accounts.

Oliver L. Velez has been featured as a trading expert on CNBC, CBS, Bloomberg, and FOX News and in publications including the New York Times, Wall Street Journal, Barron’s, Forbes, and Stocks & Commodities, to name just a few. Dow Jones called him “the messiah of day trading.” As a Wall Street “insider,” Mr. Velez has personally mentored some of the nation’s biggest and most successful traders.

IMPORTANT NOTICE! Stock and option trading has large potential rewards, but also large potential risks. You must be aware of the risks and willing to accept them in order to invest in the equity or options markets. Don’t trade with money you can’t afford to lose. This is neither a solicitation nor an offer to buy/sell securities, interests or listed options.

NOTICE: “Hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not actually executed, the results may have under-or-over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.”

Dear Friend,

We all work hard to earn a living. How well we apply our time and effort directly affects us financially...whether we earn $8 an hour at McDonald's, $100 an hour in a law office – or find a way to multiply our earnings to $5,000....$7,000...even $21,505 per week!

Imagine this...what if I told you that there was a set of techniques available, developed and used by professionals, which have literally proven to be the most powerful tools available for successfully buying and selling stocks for astronomical profits?

SUCCESS Magazine recently reported that one of these techniques was used to pile up over $4,000,000 in just 72 hours! THE WALL STREET JOURNAL reported on another technique that was used to amass over 200 million dollars!!!

Meanwhile, a former real estate broker made over $800,000 in just three months – without a single loss! And a golf caddy borrowed a small grubstake and has now made over $100,000 per month...for 70 consecutive months!!

Discover Oliver Velez’ Personal-Best Money-making Techniques

• Get Oliver’s Specific Market Trading Formulas – How to identify precisely where the market will go ... often within a window of two ticks and five minutes! So secret that he’ll only reveal this in person!

• Learn about Oliver’s “Trade For Life” Method...with phenomenal profits. This method is perfect for beginners or traders with only 1-2 hours per week to devote to trading.

• Find out about Oliver’s High-Accuracy trading...which has been 85% accurate in all markets ever traded.

  You can know when and where price will turn in every market. Short-term, long-term and even intra-day moves and turning points can be pinpointed – absolutely!

  Discover the natural forces which propel and even drive every market move.

  These forces are nothing less than amazing. There are rhythmical, natural patterns that occur an astounding 85%-95% of the time in virtually every market’s movements.

  (In other words, 85% - 95% of the time we know where the market is going. Precisely. Trading with up to 85% plus win rates is no accident.)

These are not theories. These are tried and true principles that are demonstrable, under both scientific testing conditions and real life situations, to generate more winning trades, greater profits, more automatic profits than any system or inside secret ever revealed before.

Imagine the impact on your trading, your bank account, and even your own self-confidence when you personally harness this power...to achieve results you previously thought impossible!

Trade For Life is
The ONLY Way To Trade

Oliver shows you how to trade safely – and very, very profitably.

Have you noticed anyone with a Ph.D. getting rich in the markets? I haven’t. There is a big difference between theories and discoveries about how markets work – and actually succeeding in the markets.

NOW AT LAST AN AMAZING OPPORTUNITY TO STRIKE IT RICH

Until today the “little guy” has almost always been wiped out when he tried his luck at trading.

But now, thanks to the amazingly reliable trading system developed by Oliver Velez, you can automatically overcome every investor’s biggest problem-accurate timing-to get in and out with a profit almost every time you trade.

You no longer need worry about external factors that affect market conditions...have to guess which stage of a move your market is in...or what action to take now.

Thanks to Oliver Velez’ eye-opening system, you can make fantastic percentage profits with almost guaranteed safety. Yes, you can make big profits from tiny investments without tying up your money, because you’ll win on almost every trade.

Oliver spent over twenty-six years of research and trading before he perfected this remarkably simple system that can bring you more profits, faster profits, safer profits than you ever dreamed possible, by trading within the market’s own natural rhythm.

Now you can have this priceless secret without risking a penny. Just call 1-888-233-1431 to reserve your place TODAY!
Oliver is prepared to teach you how to succeed. How to really make money in the market. Knowing EXACTLY where the market wants to go – and WHEN – is the absolute best way to win.

If you can control the thrill…if you can resist the greed that every one of us feels…you’re going to trade better than you ever dreamed possible.

From Nothing to $15,000 A Day!

By discovering what really determines when a stock’s price is poised for a rise or fall (hint: it’s NOT what you think), Oliver had in a sense found the keys to unlocking Wall Street’s “hidden vault” – allowing him and his associates to pull money out of the markets by the truckload.

He went from earning very mediocre returns on his investments to – as a full-time trader – making profits as high as $15,000 a day…and over $200,000 per month for the past six months.

He went from living paycheck to paycheck, to becoming one of the most respected and most followed traders in the country…

He went from cramming his family into a tiny basement apartment in the Bronx, NY to owning multiple homes, a fleet of exotic cars, and taking luxurious vacations across the globe – all thanks to the discovery of two simple, but very powerful trading signals.

You don’t have to take my word for it. I’ve reproduced copies of actual account statements on pages 6 and 7. These figures tell the story of his system’s success far better than I can.

YOU are hereby invited to attend this two-day, high-intensity trading workshop that can send you home armed to make HUGE profits…just as many others have already done!

And to receive all the privileges and knowledge of Oliver Velez Inner-Circle of Traders.

This invitation is NOT for everyone. It’s only for those who are willing to follow directions, work hard, take a small risk and who truly want to earn a substantial living. If you qualify you could be really wealthy…not in 10 years, but in just the next 18 months!
TAKE NOTICE: Oliver Velez is going on record, starting Saturday at 9:01 a.m. with his personal, hand-selected best-ever trades for 2008-2009. It all takes place in an explosive two-day workshop. This is the workshop where people can start off average and go home trading geniuses. This is the workshop where newly enlightened traders can go off and actually make BIG MONEY!

Oliver’s new workshop is more than just great picks – although the picks are worth many thousands of dollars to those who pay attention! He also explains in precise detail why he picked those trades. He’ll show you how he knows – with almost absolute certainty...when and where those moves will occur. And he’ll teach you how to do the same by sharing all his tricks and rules.

But, maybe best of all...

You’ll also learn about his ultimate trading secret that can forever change the way you look at any market move!

He’ll show you exactly how to get started – literally on a shoestring – and become a millionaire. Many traders now trade for a living – using Oliver’s money! And his seminars have created many, many thousandaires – people just like you who have found a better way to get rich, really wealthy, without working 9 to 5, without punching a clock, without waiting thirty years to collect a crummy gold watch!

Here’s Your Chance To Learn Secrets Never Revealed Before

You may have wondered about this: What will Oliver teach at this workshop that’s not in his trading course...or in any of the many books that he’s published? This is a fair question. And the startling answer is: PLENTY!

You see, because the markets are a moving target and constantly changing...Oliver cannot reveal market movement secrets in quickly outdated books or tapes. Only in a LIVE WORKSHOP setting can he reveal his latest and greatest breakthrough techniques – the very same ones he is using RIGHT NOW, to harvest huge profits from today’s markets (and tomorrow’s as well!) For example:

He recently identified a system so powerful, so dominating, that it replaces virtually everything you’ve ever learned about trading. It lets you attempt to trade exactly at the market turns for huge profits.

He reveals an amazing short-term system – that is so powerful and so profitable, that I cannot talk about it in this brochure...and Oliver will ONLY disclose it in person at his two-day, all-inclusive workshop. Looking to turn a small investment into the profits of a lifetime?

Oliver tells all – but only to those who are in attendance!

In this workshop – just crackling with energy and ideas – Oliver will reveal, unedited and raw, the real inside “stuff” about what moves the markets and how you can identify where and when those moves will occur. This key segment of Oliver’s live workshop will give new insights and new understanding of how the markets really work. But pay close attention – take as many notes as you can: these secrets will never be revealed outside the workshop walls.

Be Prepared To Line Your Pockets With Megabucks!

By the end of this intensive, exciting two-day workshop, you’ll be filled with step-by-step, “how-to” information. But best of all – you can be energized to the point where you can be ready to line your pockets with MEGABUCKS! (I’m not kidding here – attendees of similar trading sessions have gone on to collectively make over $100 million in profits!)

Of course, this seminar is not exactly a walk in the park nor is it for the faint of heart. But make no mistake – the material is easy to learn, simple to master.

Be prepared: you are about to embark on a jam-packed, two-day whirlwind course of knowledge transfer that’s 100% devoted to teaching you the art of making money! It’s the closest thing to a true passport to riches you are ever likely to come across.

$86,020 In A Month... Or Even More!!

Over the past 14 years, Oliver and his traders have made literally tens of thousands of trades.

And they’ve been right far more often than they’ve been wrong: on average, 85 out of 100 trades made using this system make money. Only 15 out of every 100 are typically losers.

In a recent 30-day period, one of Oliver’s traders generated $86,020.83 in profits trading one of Oliver’s accounts, using nothing but the special buy and sell signals he’ll teach you.
Oliver had $100,000 of his own money in the account. Which means his profit was 86%, which he shared with his trader (Oliver employs a large group of traders who trade his accounts, and I’ll show you later how to apply for one of these lucrative positions with his company, though I must warn you that competition for these spots is fierce, with hundreds of resumes pouring in daily).

Most investors I know would be thrilled to make 86% on their portfolio this year. But this took only 30 days.

In another one of Oliver’s accounts, shown in the table on page 7, another trader earned profits of $45,452.17 in just 18 days. That works out to about $15,000 a week.

To earn this impressive sum, he worked only 3 ½ hours per day on average – about 20 hours a week. Of course, you can put as much or as little time into this trading system as you wish.

And yet another account showed over $1,200,000 in six months. Over $200,000 steady profit each month!

Imagine what your life could be like after you master the simple but powerful Trade for Life™ trading system and can duplicate its results – either as a trader working for Oliver…or as an independent trader working from the comfort of your own home!

You could literally decide to work just 2 months out of the year…taking 10 months off to travel, pursue other business opportunities, go fishing, play golf, or just plain loaf.
And in those 2 months, you could earn as much as a quarter of a million dollars or more like some of these traders have done. Most people I know could live quite nicely on 250 grand a year. But most of Oliver’s traders decide to keep on trading, so they can earn as much as they can!

By following this simple system, you can potentially earn thousands of extra dollars a week... “working” at it only 30 minutes to several hours a day.

Or, you can quit your day job and become a full-time trader, trading your own account. And potentially earn an annual income any doctor, lawyer, or airline pilot would envy.

Or, you can trade Oliver’s account... as one of his traders. These traders share in all the profits they make, but they don’t risk a dime of their own money. I’ll tell you about this exciting opportunity to work directly with Oliver at the end of this report.

Whichever you choose – earning extra money with spare-time trading or becoming a full-time trader – the system is basically the same.

Now in this trading system – which Oliver calls Trade for Life™, because it’s based on indicators and repetitive events that will be accurate and valid for as long as you or I live – Oliver identifies the key chart patterns that can tell you precisely when to buy or sell with uncanny accuracy.

Best of all, the key signals indicating whether a stock is ready to rise or fall are incredibly simple, obvious, and easy to read.

You Are About To Embark On A Journey Of Wealth

This is it – your chance for real trading success! Oliver intends to help you become fabulously rich – and maybe even famous – as a market wizard and genuine trading millionaire. It is his willingness to openly and freely share all his trading secrets that has made him a favorite of virtually all attendees.

Remember, I told you this workshop isn’t for everyone – just for those who want to follow directions, work hard, take risks – and be RICH!

Are you ready for huge mega success? Are you willing to attend a truly intensive training program?

Are you ready to take control of your life (and your wealth), and never worry about money again? Say “YES!” – and sign up for this workshop immediately!

People who have joined earlier workshops say that they have picked up so much inside knowledge during their experience that they come away literally dead tired and drained to the core. But, they have learned so many wealth-building facts that it alters their lives forever.

–continued on page 9
Truly A Once In A Lifetime Opportunity!

I honestly feel this personal training will deliver more value than any program ever created on money-making.

Attendees of earlier workshops are living proof – by piling up huge profits right now! The benefits are so enormous because you’ll spend two very full days getting the “inside track” on everything Oliver actually uses.

Here’s what attendees of earlier workshops have said about the enormous benefits they received:

Thank you for taking the time to educate us in Las Vegas. Of particular value to me was the sample trading plan. I have often gone back to the Manual to refresh my memory. You never know where the diamonds are going to be found, but I wish to thank you for those.

– Colin “Soup” Campbell

My first day after the course was profitable. You guys give great support to beginners. Thank you.

– Cohen

This has been an awesome experience. Love the trading room with Paul—very helpful.

– Mitch Alguadich

This trading program is the best thing I’ve ever done. I can tell I am on my way to finally being a profitable trader. I have been searching for this ever elusive goal for 6 years, and now I can see it taking shape. Thank You, for this opportunity. I am surely blessed to be here, thank you, thank you, thank you.

– Donnie Mitchell

Your Trade Log is an awesome tool. Thank you for taking the time to develop this tool for your traders! I totally believe in the concept as it has become my greatest ally in becoming consistently profitable over the past year. Logging and keeping track of my trades opened a whole new world for me and gave me the confidence needed to keep pulling the trigger when my data told me it was right to do so.

– Greg Thurman

Thank you Malcolm, Oliver and Paul for what you guys are doing for us common everyday folk. I have been involved in other training programs in the past and didn’t really learn a thing. This is absolutely the best I have ever seen. Again, Thank Y’all for what you do.

– Terry Coble

I have attended several other training programs for traders, and this one has by far been the best. Most others deal with a lot of trimmings and not a lot of substance. Oliver and his team have shown how price is king and that charts are the only things in the market that don’t lie. His approach makes learning how to read those “footprints of money” an interesting and inspiring experience. There are others who allow students to trade in their account during class, but none seem to have confidence enough in their methods to make those students part of their own team and support them to the same degree as VCM.

– Raymond S. Dreczko

It has been a great week. I continue to be more and more impressed with both the dedication of all the people at VCM and your continually evolving program. I cannot imagine a better model for trader development and am truly thankful that I found your organization.

– Craig Ibbotson

I retired four years ago from IBM and have spent 10’s of thousands on training. Nothing comes close to the value I received this week.

– Bill Schwaner

I must let you know that I’ve attended almost all the financial seminars that have come my way: Optionetics, Better Trades, Investools, Wizetrade, etc... but nothing really pulled at me the way VCM did. VCM outshone them all. I’m exceedingly thrilled to join the team.

– Roy Ramkissoon

A Complete Guide to Trading for a Living 2-day Seminar
Course Instructor(s):
Oliver L. Velez, best-selling author, international speaker, and one of the trading industry’s most recognized educators, has designed a brand new 2-day course that specifically caters to traders who harbor the desire to earn their entire livelihood from the markets.

Trade for Life™: A Complete Guide to Trading for a Living will walk the trader through several very specific styles that are best suited for “high consistency trading.” When the goal is to earn a living from the markets, there are only a small handful of styles that are appropriate. The main ingredient for each tactic or style of trading is that it must be “timeless,” which is what will allow the trader to Trade for Life™ in any market environment.

Course Description:
The investment mind-set must be put aside by the professional trader. The wealth mind-set as well must be reserved for other areas of one’s financial life. The real professional trader understands that the name of the game is smaller profits, but smaller profits that are derived with extremely high consistency. In a very real sense, the talented income generating trader is looking to become the personification of an ATM. He wants to be skillful at making small, but very consistent withdrawals from the market, each and every day, if not each and every hour.

Mr. Velez has not only taught some of the country’s most consistently profitable traders, he actually employs over 900 traders, many of whom are net profitable nearly every single day. What many regard as astounding is the fact that it is not uncommon for a top-ranked Velez Capital Management, LLC (“VCM™”) trader to have as few as two to four losing days per quarter. That is largely due to the styles of trading Oliver teaches, which greatly focus on accuracy and high consistency.

Let one of the best educators in the business teach you (over the course of 2 full days) the same “high-octane” trading styles used by many of his own VCM traders.

Course Outline:
Over 2-days, you will learn:
• How to trade morning gaps at the open for near instantaneous profits each day;
• How to determine which gaps to fade (trade against) and which ones to run with;
• How to make the first 30-minutes of the day your most profitable period;
• How to make the last 90-minutes of the day your second most profitable period;
• How to turn the mid-day doldrums into your most consistent income generating period of the day;
• How to make the biggest profits from stocks that are declining;
• How to make your profits and your consistency soar in flat markets;
• How to trade against the prevailing trend, professionally;

• How to profit from the fact that 72% of all breakouts fail;
• How to determine which breakouts are likely to fail versus those that are likely to explode;
• How to profit from the fact that more than 60% of all new highs fail;
• How to profit from the fact that the second move in a stock is usually its biggest;
• How Market Makers and NYSE Specialists profit from retail traders each day;
• How to turn 65% of your losing trades into winners with one simple strategy;
• How and when to send the right orders for the fastest fills;
• How to accurately pick tops and bottoms with four powerful tactics;
• How to benefit from the 3 most powerful reversal times each day;
• How to ride a stock for maximum profits with three incredible trailing stop methods;
• How to increase profits with VCM’s incremental sell approach;
• And much, much more.

And that’s not all:
- Learn how to become eligible to trade with $50,000 in buying power or more, while you learn his trading methods;
- Learn how Oliver will absorb all your trading losses while you learn his trading method;
- Learn why professional traders will always have an edge on retail traders;

AND…
- Learn how to trade at VCM’s institutional commission rate which is only $0.02 (two cents) per every 100 shares.

Let one of the most celebrated traders and educators in the financial world teach you all the tactics and strategies he and his elite team of traders use to pull consistent, day-to-day profits out of the market.

Call us toll free today (1-888-233-1431) to sign up for our next scheduled 2-day seminar, and let us help you Trade for Life™.

Trade for Life™ Intra-day E-mail Alert Service

While the Trade for Life™ letter will prepare you for the trading day each and every day, many opportunities happen after the market opens. Stocks that gap up or down or stocks that have big moves intraday often give wonderful opportunities that are not discovered until after the market opens. The VCM Research department brings these opportunities to you as they occur through our E-mail Alert Service.

VCM Proprietary Trading Room

From before market open to after market close you will be receiving market commentary and discussions of possible trade opportunities. These will include everything from long term core trades to short term day trades. There will be discussions on play selections pre-market based on gapping stocks, analysis of stocks from daily and weekly watch lists, and intraday set ups. There will be market analysis and determining a trading bias every day by analyzing the NASDAQ and S&P futures and various market internals such as the TICK and TRIN. There will be discussions of management of all open plays and post market commentary and educational lectures.

One of the biggest issues for developing traders is how to follow up on the learning process. When a trader learns strategies in a classroom type setting, the issue quickly becomes how to know if they are being implemented properly in the market place. After all, once you leave the seminar or turn off the DVD, who is there to tell you if you did something wrong, or if you simply had a trade that didn’t work? Being in a real time environment with a professional trader guiding you will give you the opportunity to continue the learning process at the most critical time.

Trade for Life™ Daily Letter

Lessons - There are many lessons that are only learned by experience. The good thing is that it does not have to be at your cost. Learn from others experience by collecting a series of lessons brought to you every day in the opening paragraph of the Trade for Life™ letter.

Stocks - Play ideas on individual stocks will be provided as they occur in the market. The VCM Research department scans hundreds of stocks, virtually all of the ‘playable’ stocks in the market to bring you the best swing and core setups every day. The plays selections could range from zero to four selections based on market conditions. You will be supplied with the rationale for the play, as well as the proposed entry price, stop-loss price, targeted exit areas, and the proper management philosophy.

ETFs - ETF is the acronym for “Exchange Traded Fund” which represents a new and very popular style of market play for the core and swing trader. ETFs give traders the ability to play a whole basket of stocks in a single sector by purchasing one single tracking stock. Professional money often goes after all the stocks in a sector and when the setups happen, ETFs let you play along without the fear of being in the ‘wrong stock’ and with less risk because large overnight moves are not as likely as they are with individual stocks.

E-minis - Every day the market will be evaluated to arrive at a likely trend on the daily charts and develop a likely intraday bias for day traders. The market will be looked at through the eyes of the E-mini contracts. The E-minis are the smaller sized futures contracts and will be used, as they are very popular trading vehicles for those who want to play the market.

Market Analysis of the Week

Every Tuesday

Over two-thirds of most traders’ losses are from being on the wrong side of the market. There are some stocks that move on their own volition, but most are driven by the force of the broader market. If traders do not understand what direction the market is currently moving, or what direction it is likely to move next, they are at a big disadvantage. This applies even when trading stocks. Since many traders also trade the market directly (QQQQ, SPY, DIA, QID, QLD, SDS, SSO, DDM, DXY, or any E-minis just to mention a few) the need to understand the market movement is imperative.

Also many traders fail to appreciate how various time frames interact. Even short term traders’ odds of success may be influenced from larger time frames.

Every Tuesday the VCM Research Department will bring you a free look at the current trend of the market and most likely future direction of the market. This will help you stay focused, time your trades better, and give you an insight to what we do every day in the VCM Proprietary Trading Room Service.

Trading Lesson of the Week

Every Wednesday

It is a fact that there is not any software or objective system that will consistently make money in the markets. Education is the key to understanding the markets. VCM is dedicated to your education and we do so through our live Trade for Life™ Seminars, DVDs and on-line presentations. In addition our VCM Proprietary Trading Room provides subscribers with live plays, market commentary and education throughout the trading day. We also have the Trade for Life™ Daily letter, Intra-day/E-mail Alert service; and the VCM Proprietary Trading Room service. In order to show you how we value education, we offer to our readers a free Trading Lesson of the Week. Every Wednesday these lessons provide valuable commentary from the VCM Training Department ranging from chart patterns to psychological topics. These lessons will provide you with insight every week, and give you a sample of the style of education we are committed to at VCM.
Oliver Velez’s *Trade for Life™* Program

**Are these your questions?**

**Q:** I’m not an experienced trader. Will the *Trade for Life™* system be too complicated and complex for me to learn?

**A:** Not at all. On the contrary, the trading signals and chart patterns in the *Trade for Life™* system are amazingly easy to identify and read.

The system consists of just 2 basic signals and 7 different chart patterns of reliable market scenarios. You don’t even need to master all 7 chart patterns to trade the system successfully. Many of our most successful students trade only two or three of the patterns.

**Q:** You and your traders claim to have made a fortune trading your own system. How do I know you really make the trading profits you say you do?

**A:** I have reproduced actual trading statements in this report. What’s more, we welcome and receive people from all over the world who frequently visit our trading offices to witness our traders trading live. And my 5-day “live trading” laboratories have been stunning students and the general public month after month.

During these training sessions you can actually observe me trading in real-time. I do actual trades during the full week, and generate profits right before your eyes.

**Q:** I have a full-time job that keeps me busy. Will I have enough time to trade with your system?

**A:** Many of our traders reach their daily profit goals within the first hour of the trading day. We have demonstrated that a trader can make a handsome living trading my system just 30 minutes to 3 hours per day.

So, if trading is a hobby or a source of extra income, you can potentially make hundreds and sometimes thousands of dollars a week trading only 60 minutes or less each day.

**Q:** I’m not technically sophisticated. Even if you teach me how to read your charts, where can I get the charts I’m supposed to look at?

**A:** Getting accurate, up-to-date stock charts today is easy as pie. Charting services abound on the Internet, and many of them are free. Take a look at [www.bigcharts.com](http://www.bigcharts.com). Other charting services are outlined in your course materials.

**Q:** Does the Velez *Trade for Life™* system work only with individual stocks?

**A:** No. It works equally well for any financial instrument you can trade on an exchange. These include individual stocks, stock indices, bonds, commodities, FOREX, e-mini futures, and any other openly traded markets.

You can use my *Trade for Life™* system to trade any and all stock, e-mini, and futures markets – including ETF’s like QQQQ, SPY, DIA, SMH, OIH, XLE, GLD, and index futures like the S&P 500, NASDAQ 100, Dow Jones, and Russell 2000.

Do you trade commodity markets like gold, crude oil, natural gas, sugar, silver, and copper? *Trade for Life™* can help you there, too. Same thing with the major Forex markets including the Euro Dollar, British Pound, Australian Dollar, Japanese Yen, Canadian Dollar, and Swiss Franc.

What’s more, the system works with a variety of trading styles including day trading, swing/position trading, and portfolio/position trading.

**Q:** I’ve always been a buy-and-hold investor, because you buy and sell shares less frequently that way. Won’t commissions eat up most of my trading profits?

**A:** No, because the unification of exchanges has caused commissions to drop to miniscule levels.

On one of my first professional trades, it cost me $1,100 to sell it. Now it costs you less than $5. In fact, my traders trade stocks for as little as 2 cents (2 pennies) per every 100 shares.

Thanks to discount brokerages and online trading, you can open an account and start trading on the Internet literally within minutes. The barriers to entry have vanished. The playing field is close to level. Individual investors can use the same tools that were once only available to the pros.
Our Goals

VCM is rapidly becoming a major force on Wall Street. Its monthly volume has exceeded 500 million shares and it was one of the largest liquidity providers for NASDAQ on the NYSE when rebate trading was in vogue. VCM is expanding its well-trained trading team to 1,000 worldwide over the next 2 years. The firm currently has four offices around the globe, with three more trading facilities opening soon in Sao Paulo, Singapore, and London. Growing a global nation of professional market players, all trading one account, has been the goal and aspiration of VCM’s pioneering CEO for well over a decade.

Our Accomplishments

VCM’s trading ranks have more than quadrupled over the past 10 months and its trading volume increased well over 400% last year. The firm continues to be a top liquidity provider for NASDAQ and last year set an all-time new record for a firm its size by trading over 600 million shares during the month of April 2007.

Our Future

Automated trading and robotics represent the most fascinating area of the world’s financial arena today. In the near future, automated trading via algorithms, advanced neural networks and smart technology will account for the vast majority of the world’s trading volume. VCM’s Automation Division currently designs, develops and runs black and grey box systems that are designed to exploit market opportunities every second of the day, without any human intervention. This rapidly growing area of trading has become one of the major focuses of the firm. Its numerous black and grey boxes are net profitable nearly every day and currently account for more than 20 million shares a month. It is our goal to merge the best human trader skills with top performing technology to create an unbeatable combination.

Our Humanitarian Mission

It has been the long standing belief of Oliver L. Velez, CEO of VCM that micro trading has the potential to serve as a solution to many of the world’s economic and social ills. By providing access to training, capital and a performance based trading model, improved economic and social development in many developing countries can be the result. As opposed to the all too popular top down solutions, VCM, in collaboration with the Velez Family Foundation and several other major companies, plans to be a torch bearer in the fight against global poverty by bringing its trading programs and training facilities to global areas that lend itself to attacking poverty from the ground up. VCM will accomplish this by offering to those with few resources or any form of collateral its formal training and access to the firm’s trading account via well supervised proprietary trading programs. This effort will be spearheaded in global areas such as Latin America, China, India, and other growth regions of the world.

Get rich at Wal-Mart

Investment gurus will tell you that the market can move up, move down, or trade flat.

But that’s only over the long term. In the short term, there’s no such thing as a truly flat market.

Instead, we have volatility every day: small fluctuations in the prices of hundreds – even thousands – of publicly traded companies.

The Trade for Life™ system takes advantage of this ongoing volatility – tracking the price movements of thousands of stocks minute by minute. So you can trade as often or as seldom as you like: monthly, weekly, or even daily.

Not all of Oliver’s students are professional traders. Many are traditional “buy and hold” stock investors.

As stock investors, they’re used to longer holding periods. So even when they take the leap from conventional stock investing to trading, they prefer longer-term trades. And the Trade for Life™ system spots hundreds of trades every year with holding periods that last anywhere from a few weeks to many months.

Some Trade for Life™ students are experienced traders – even day traders. They prefer lots of action and quick profits – and the Trade for Life™ method can provide that too.

Wal-Mart (see chart) was one recent intra-day trade. After the chart showed a clear signal, indicating a decline

As predicted by this proprietary signal, Wal-Mart moved aggressively higher. Then the price broke a prior bar’s low – a clear “sell” signal for us. We liquidated our position 90 minutes after our initial buy at $49.65 for a quick 3.6% profit on the trade.
Success NOW – And Years From Now!

Oliver reveals the monster moves that could make you a fortune in the next 18 months. Along with short-term trades to make you thousands in the first few days after your workshop. These alone may make you 10 to 100 times the cost of your training. But most important, you’ll learn techniques, systems and trading skills to help you make huge profits for years and years to come...just as traders are doing right now! You’ll discover:

• How to identify precisely where the market will go – sometimes within 2 ticks and 5 minutes.
• The sure-thing trades with a 12-year record of accuracy – trades you won’t see anywhere else.
• Opening Gaps – how to trade them and take piles of money from the 95% of traders who believe the conventional theories.
• The significance of precise Zone Patterns that reveal intra-day, short-term, and intermediate price swings.
• Most Important – how to handle confusing data. The ability to translate mixed market signals into a real-world, profitable way to trade for life!

And that’s just for starters! You’ll discover tons more in this ground-breaking program!

Mega-Moves Right Now – And Into Year 2010

You can now – immediately – learn how to trade the markets where the mega-fortunes should be made. Not only will Oliver teach you what those markets are – he’ll also teach you exactly how to trade them. No questions. No guessing. No problems.

He’ll show you how to know precisely when to get aboard – long or short – for major trends which produce incredible profits.

He’ll also give you the precise buy and sell rules ... the best time to take advantage of them ... even when to take your mega-profits and move on.

Better yet, this year...and for the rest of your life... you’ll be able to spot these trades as well!

The life-changing trading seminar you can take at home

At Velez Capital management, LLC (VCM), Oliver currently employs over 900 professional traders.

With 4 offices around the globe, he intends to hire an additional 350 traders over the next 2 years. Oliver literally get hundreds of resumes every week from both new and experienced traders wanting to work for VCM. These ambitious men and women have heard about the large sums of money traders are making with the Trade for Life™ system...and they want to grab their share.

Oliver’s objective is to grow VCM into a major force in the equity trading market. VCM trades, on average, close to 300 million shares a month.

VCM profits and trading volume increased 700% this year so far. And they’ve been a top 10 NYSE liquidity provider for NASDAQ.

But the traders now working at VCM didn’t come as expert traders. Oliver personally trained each and every one of them in his Trade for Life™ system.

There’s a reason why Oliver is practically giving away his secrets in a $5,000 Trade for Life™ seminar.

The professional traders hired at VCM all trade Oliver’s accounts. When they make profits, Oliver does too. But they take zero risk, as Oliver absorbs all losses. They never have to put up their own money.

Naturally, traders who have mastered the Trade for Life™ system make money – for themselves and...if they work for VCM...for Oliver.

That’s why he only hires traders who have taken his training. And why he wants to hire more traders who use his system. In fact, he has positions for over a hundred new traders opening up this year!

By getting his Trade for Life™ secrets into the hands of as many traders, investors, and aspiring traders as possible, he creates a bigger pool of traders who know the Trade for Life™ system...and a bigger
pool of potential employees who can go to work and make themselves – and Oliver – even more money!

Once you complete the Trade for Life™ course, you qualify for more advanced, live, in-person training at VCM.

Should you be selected, Oliver may be offering YOU a job as his newest trader – as early as this year!

Who else wants to become a successful, financially independent trader?

Can you imagine how much easier and less stressful your life would be if you had the freedom and financial independence that this Trade for Life™ system has already delivered to thousands of investors nationwide?

Oliver knows first-hand, because many of his traders have been poor, and many are now rich. And believe me, they all tell us, “Rich is better!”

He personally started his professional career mired in debt. His credit was in shambles. His car was repossessed. He was evicted from various apartments numerous times.

Why? Because instead of paying the rent, he would keep putting new funds into his trading account to make up for losses. He was determined to make trading work – no matter what it took. Unlike you, however, Oliver had no teacher to guide him – he had to learn trading through costly trial and error.

But now all that has changed….  

I can tell you that mastery of this business we call trading makes an incredible difference. Trading is one of the last bastions of total independence.

Think about it: with just a laptop computer and an Internet connection, you can be in business from anywhere in the world. No overhead, no rent, no employees, no anything. Just you, your favorite location, and the markets. Amazing!

When done correctly, the money comes more quickly in trading than any other activity. At a certain point, you know that, unless you want to, you never have to work at a job another day in your life, no matter what your age.

The money that can come from successful trading also gives you power: the power to be incredibly generous with others. Your spouse. Your children. Other people you care about. And through philanthropy, people you don’t know – and may never meet – but want to help just the same. Many of Oliver’s students have earned the resources to do just that.

Money can also help boost your self-esteem and confidence. Money isn’t everything. But it is one of the ways we keep score of success. And any successful trader will tell you, when you’ve made the first million or two trading, you feel like you’ve come out well on that success scorecard.

Least important, but perhaps the most fun, is all the material possessions – both the necessities and the toys – that you and your family can enjoy, thanks to your trading profits.

Sure, Oliver has his share of toys. At one point, he owned 18 different cars including a Ferrari, a Maserati, and a Rolls Royce.

Oliver also owned seven homes. One is a beach house on the ocean in Cape Charles, Virginia. And his 3,500-square-foot Miami penthouse has views of both the ocean and the city skyline.

Oliver and his wife love art, and have an art collection worth more than some people earn in a lifetime. Travel is another passion. Asia, Europe, Latin America, the Islands...they’ve literally done it all. He even threw a big birthday party bash for his 8-year-old daughter in Paris, and now she’s hooked on traveling, too.

But these things are not really important. What
we all value most from trading – and what mastery of a proven trading system can do for you – is give you total freedom. Freedom from a boss…from a job…from ever having to take orders from someone else, or do things you don’t want to do – ever again.

Questions After The Workshop? You Get Oliver and His Trained Assistants

Oliver himself will take calls, deal with your questions, and help as much as possible. And expert assistants are here to answer all your questions. Who are the “Inner Circle Members?” These are special investors just like yourself – who have joined the journey to wealth and financial independence. They have earned the right to get the best, most profitable information anyone can give – and will give – every time. They are the select few – members of Oliver Velez “Trade for Life™” Inner Circle.

He’s even installed a special phone for exclusive use by Inner Circle Members like you. Confused? Oliver and his staff are there. Questions about anything you’ve been taught? Oliver and his staff will answer them – and there’s never any charge. All he asks is that you respect their time.

In addition, he’ll write a special new report every week for Trade for Life™ workshop attendees. E-mailed to you each week. Free of charge, of course!

My Personal Promise: You’ll Go Home Fully Prepared To Become A Super-Successful Trader Within The Year!

Are you tired of buying courses or attending seminars and conferences that leave your head whirling with all that scattered information? I know I am. In fact, it seems that everyday I see someone giving a seminar or selling a system for $3,000 to $85,000. These people will tell you all kinds of things – but they never prove their trading ability. They will not and can not show you brokerage firm statements proving they walk their walk. Oliver Velez can, and he does!

Frankly, these guys tick me off. Many people attend conferences and courses and they have yet to make their first $1,000 of real profit!! They’re still confused as to which step to do first…second…third… and so on. Truth in fact: these other lecturers are simply not for real – yet people flock to their mumbo-jumbo meetings. I just don’t get it!

Remember – for those two intensive days – Oliver Velez is the ONLY instructor you’ll see. That’s two full days of Oliver and his hugely profitable trading techniques. Not someone else; not some stand-in just spouting theories…You get Oliver only!

Oliver Velez is for real! He’s been actively trading for over 20 years, with a record that’s documentable and hugely profitable. He will give you step-by-step instructions on how to achieve the same huge successes that past attendees have thoroughly enjoyed and then work with you for life.

Feel The Electricity In The Air – It’s The Feeling Of Success!

And there’s something else…something hard to put your finger on. It’s an energy – a pulse of confidence and power that builds throughout the entire workshop. People attending seem to transform in their energy and confidence…they revitalize and build their own success. I’ve seen it dozens of times; the new, vital, alive look within you reveals that you’ve grown into a huge trading success!

One older gentleman put it this way, “I felt as though a whole new door had opened in my life. I hadn’t felt that way in over 40 years. I knew the first hour that my life would never be the same!”

A Wealth Of Information And A Unified Strategy Are Just Waiting For You To Learn!

There is so much jam-packed into this explosive two-day event, that even when I try to list it

Traders and investors praise Oliver Velez

I think you guys have put together a truly remarkable program to allow a person like myself the ability to seriously become a professional trader. All of you continue to support all of us with not only great education but the ability to gain the much needed experience that is required to be successful. The ongoing education is great and you keep developing more tools to help us all win together. This new support room is another step you are taking to make this program even better.

– John Dyer

The sincerity, attitude and helpfulness of Oliver and assistants is as good as it gets. The opportunity to trade with Oliver was a highlight. Oliver and Malcolm are great educators! Assistants are key!

This is an opportunity to have all the tools to make a dream come true for a would-be trader. I evaluated this before signing up, and it was the people who are a part of VCM that gave me the confidence to sign up, and they keep impressing me with their professionalism.

– Kevin McKinney

Everything was excellent! Malcolm was great. He was very well organized, helpful, patient and knowledgeable. The pace at which he worked for us beginners was excellent. He was empathetic to our needs and explained everything very clearly.

Oliver’s 2 day presentation was fabulous! Found him to be well organized, calm, having a superior knowledge level, empathetic with new traders, very honest about the trading world (didn’t sugar coat anything), and sincere. I would recommend this course to anyone. It’s the best I’ve seen. The ability to take this online monthly was one of the deciding factors for me.

– Jeanne Schroeder

VCM is the best trading training I’ve ever taken, and I have taken more seminars than most! What I learned just blew my mind for providing successful trading. Thanks, Oliver, for all you have done to make me successful!

– Roger Humarger

I highly recommend this service. I am poor living on a budget. I was able to come up with the money and was scared to give it up. I had a fear of the unknown. Also, I had never traded short and probably only 1,000 shares total. During class, I traded over 21,000 shares and it opened my eyes to a whole new world that I did not know existed for people of low income like myself. I feel that issue will be behind me now because VCM is my backer. So take the leap and you will not regret it.

– Tracy Raisor

I have to say, your program, without question, is the best I’ve ever encountered and sadly, I’ve tried quite a few. I hope to keep trading with what I’m learning from VCM for many years to come.

– David Nordin

NOTICE: TESTIMONIALS ARE BELIEVED TO BE TRUE BASED ON THE REPRESENTATIONS OF THE PERSONS PROVIDING THE TESTIMONIALS. BUT FACTS STATED IN TESTIMONIALS HAVE NOT BEEN INDEPENDENTLY AUDITED OR VERIFIED. NOR HAS THERE BEEN ANY ATTEMPT TO DETERMINE THE EXPERIENCES OF THE PERSONS GIVING THE TESTIMONIALS AFTER THE TESTIMONIALS WERE GIVEN. THE AVERAGE READER WHO PURCHASES THE SYSTEM SHOULD NOT NECESSARILY EXPECT THE SAME OR SIMILAR RESULTS. TESTIMONIALS MAY BE BASED ON OLIVER’S PREVIOUS PUBLICATIONS, AND ARE NOT NECESSARILY BASED ON THE SPECIFIC PUBLICATIONS OFFERED IN THIS BROCHURE.

all – I leave something out! Here is just another sampling of all that you’ll learn here.

• Countless Major Moves For October 2008 through 2010 – all with the potential to make you a millionaire!

• Swing Moves – how to precisely identify, then profit on the swings up and down with low risk.

• Trade Secrets For An Unpredictable Market – how to insure 85% Winners.

• Spotting Market Symmetry – find the incredible pattern in the market and use it to make some staggering profits.

• HOT MARKETS FOR TOMORROW – Oliver will carefully analyze all the current markets as of the day of the workshop, and give you his dead-on views of what the current markets will be doing.

• Oliver Velez’s Personal Trade Rules – his six rules of market entry, plus powerful guidelines for closing each trade and taking profits!

• Numerous mechanical trading patterns and systems with highly impressive results.

All-New, Powerful and Profitable! This ultimate trade plan goes way beyond the basics … you’ll step up to a whole new focused level of insight and trading success.

Unlimited Follow-Up After The Workshop.
Plus, if you have any trading questions after you leave – just call. Oliver and his staff are here to train you and work with you during the workshop and beyond.

Absolutely Guaranteed. Everything is guaranteed as I’m about to describe.

Here’s Your Unprecedented Double Guarantee – YOU CAN’T LOSE

Listen. I know it’s a big step to travel to a workshop and give up a couple of days. But you won’t regret it. I’m convinced you’re going to learn more even in the first morning then you ever thought possible.

That’s why I’m offering a Double-Barreled, unprecedented guarantee on this whole thing.

Part One is an “On The Spot” no-questions-asked refund. You heard right. If you are not 100% satisfied, simply speak to Oliver by the first day’s lunch break. He will immediately give you an on-the-spot refund. Absolutely no questions asked and no hard feelings.

Part Two is a performance guarantee with no loopholes. Simply follow the “Trade for Life” trading methods. If after one year of trading, this program has not made profits at least Double our workshop fees, just show Oliver and he will immediately give you back every penny of your workshop fee.

He will have a full analysis of the 12 months of trading. If this record does not show profits at least double your workshop fee, you’ll be due a full, no questions-asked refund.

So you’re protected with an on-the-spot guarantee and a long-term performance guarantee. Naturally, Oliver also promises to personally work with you and make sure you understand everything completely.

Your Part Of The Deal
It’s with some reservations that Oliver decided to share all these secrets. After all, he is currently using these exact techniques in the market. That’s why he’s carefully controlling how many people will be trading with this.

You must agree not to reveal these systems, strategies and ideas to anyone without Oliver Velez’s permission.

And you must agree to trade it only for your own personal account.

You will be licensed with a registered, unique workshop manual. Anyone revealing these secrets will be identified and prosecuted to the fullest extent of the law. This protects both you and Oliver from having too many people trading these strategies.

How Much Would You Pay For The Keys To Complete Financial Independence?
I believe that using the systems and methods that Oliver shares in this workshop could easily net you at least HALF A Million dollars in the next 18 months. If there are any decent markets out there at all – who knows? Your profits may be substantially more than that! Just think … this may be the year that you take your place in the millionaire’s circle!

Is This Your Best Chance To Become A Millionaire?
Choose the date and location most convenient for you. Seating is strictly on a first-come, first-serve basis! DON’T WAIT – reserve your place today!
The cost for this “Trade for Life™” Inner Circle Workshop is a flat out bargain!!

All you’ll pay for this intensive, one-on-one, two-day workshop – including lunch on both days – is $6000. But reserve your space right now, within the next three weeks, and you’ll be able to come in at the special “Inner Circle” rate of just $5000.

It includes a voluminous workshop manual with all the examples, rules and systems in black and white, plus ample room for you to take notes. And follow-up assistance direct from Oliver and his staff.

Is it cheap? No – the best things in life rarely are. But it is a great bargain. Frankly, I wouldn’t be at all surprised if you made 10 times the workshop cost in the very first month or two! For past workshops, we needed to create a waiting list and actually turned away some people. I don’t want this to happen to you. Confirm your reservation NOW – while you still can!

A Real-Life Skill To Make Money Forever!

The “Trade for Life” workshop will put an end to poor trades and start increasing your accuracy and profits right away! We’re talking a real-life, nuts-and-bolts, down-to-earth, step-by-step system for pumping out trades that make you money... time and time again. It’s worked for other traders; now let it work for you.

What’s more, you’ll gain a brand new skill – the skill of pinpointing trades that will put money in your pocket time after time! A skill you can use to multiply your profits 1,000 ... 10,000 .... 100,000 times – every time you place a trade!

Think about it, what knowledge could be more valuable? Would reading the Wall Street Journal every day be more valuable? Sure, you can go ahead and try your same old trading methods and systems again. And you can hope and pray that your next trade works out.

But why put yourself through it all? Why not invest in your ability to take control of your profits, increase your lifestyle, and make more money by learning how to trade for a living? You’ll discover the real secrets of pinpointing profitable trades quickly... like magic!

These techniques could be worth millions to anyone investing in the markets!

TODAY’S Amazing Profit Potential!

Huge swings up and down have become the norm in today’s markets. Swings of 100, 200 and over 300 points in a single day are more and more common. That’s why right now is the BEST time ever for swing traders!

Take a look at the Industrial Average for the past 6 months. After the 1545 point plunge in August and the 1573 point decline in November, the average is virtually unchanged over the past six months.

During this period we’ve tracked 14 swings with a potential gain of 10,660 points!

Score: Buy and Hold Traders = 0
Swing Traders = A Fortune!

Roller Coaster Ride of the Dow Jones Industrial Average Over the Past Six Months
Net Result: DJIA Virtually Unchanged
Swing Trading Net Result: 10,660 points of profit potential
