Option and stock investing involves risk and is not suitable for all investors. Only invest money you can afford to lose in stocks and options. Past performance does not guarantee future results. The trade entry and exit prices represent the price of the security at the time the recommendation was made. The advisory service trade record does not represent actual investment results. Trade examples are simulated and have certain limitations. Simulated results do not represent actual trading. Since the trades have not been executed, the results may have under or over compensated for the impact, if any, of certain market factors such as lack of liquidity. No representation is being made that any account will or is likely to achieve profit or losses similar to those shown.
