

Introducing
International Trading Champion
**Chuck
Hughes**

Chuck Hughes didn't study finance at Wharton or work as an intern at Goldman Sachs. He enlisted in the Air Force and became a jet pilot. And when he got out of the military he flew jumbo jets for a major airline... which gave him 15 to 17 days off each month, plus countless hours during layovers.

As a way to pass the time, Chuck got interested in the stock market. So, after reading stacks of books on every form of analysis, in 1984 he scraped together \$4,600, opened his first trading account, and within two years earned a total profit of \$460,164!

Elated by his instant success, and being somewhat competitive by nature, in 1985 Chuck entered the United States Trading Championship. And, trading real money, he finished 10th the first year and 3rd the second year with a whopping 260% return!

Ready for the "Big Time", next Chuck began competing in the same International Live Trading Championship that brought Larry Williams instant fame... which also trades real money. And so far he's taken 1st place a record-breaking 8 times... more times than anybody else in the 33-year history of this prestigious competition... plus additional trophies for 2nd and 3rd place.

Chuck's unique approach to creating trades scientifically engineered to find the best profit opportunities and reduce risk... making him the winningest trader in Int'l Trading history... came to be known as Hughes Optioneering[®].

By the time Chuck was grounded due to a rare vertigo-causing disease, Optioneering earned him more money trading part-time than he earned full-time as a commercial pilot... So, thank goodness, his wife and six kids never wanted for a thing. Most folks wouldn't be so lucky.

Prematurely retired, with loads of extra time on his hands... and knowing firsthand that there's no such thing as financial security without an alternate source of income you can fall back on... Chuck began sharing Hughes Optioneering[®] with fellow Americans and folks around the world...
